What is this product?

Type

The Sub-fund is part of BA³ STRATEGIC INVESTMENT SICAV fund. The Fund is an open-ended investment company with variable capital, incorporated in the Grand Duchy of Luxembourg. This Fund is authorised and supervised by the CSSF. The Depositary is Banco Inversis S.A.

Term

The investment horizon is medium term and should be at least 5 years.

Objectives

The Sub-Fund is actively managed. The investment objective is to achieve medium term capital growth mainly through the direct investment in equities. The Sub-Fund combines a thematic approach and a quantitative equity selection approach within a multi-asset allocation strategy, unrelated to benchmark constraints. Both thematic and quantitative approach to equity selection are based on a fundamental analysis of companies, even though they use different drivers. The combination of the two approaches is an efficient solution to ensure a more stable long-term performance. Crescita Dinamica" (Dynamic Growth) recalls the need for capital growth to which the Sub-Fund responds through a "dynamic" equity matrix multi-asset allocation.

The Sub-Fund seeks to accomplish this objective through investing primarily in equities. The target direct exposure of equities is at 75% most of the time, whereby the equity exposure can range between 50% and 100%. The maximum exposure to the fixed income is 50%, this exposure could be indirect through investments in shares/units in UCITS or direct through investments in investment grade fixed income bonds of issuers from OECD countries.

For hedging, the Sub-Fund may use financial derivative instruments products traded on a regulated market. In particular, the Sub-Fund may at all time take exposure to derivatives on any eligible underlying, such as equity or bond indices, transferable securities, interest rates and currencies, at all times in compliance with the Grand Ducal Regulation.

Intended retail investor

Reserved for retail and institutional investors. The investment strategy corresponds for the investors with a medium-high investment risk profile. Minimum Subscription: 1.000 EUR.

What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 5 years
Total costs	604 EUR	1,946 EUR
Annual cost impact (*)	6.1 %	3.0 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.6 % before costs and 5.6 % after costs.

Composition of Costs

The table below shows the impact if you exit after 1 year.

One-off costs upon entry or exit
